Our Summer Nature camps are designed to capture the interest and the imagination of the campers as they explore the outdoors and nature through engaging and thought provoking programs. Group size is 10 campers to one Lead Counsellor plus one or two Junior Counsellors (ages 13-19). Highlights include fishing, hiking to the Botanical Garden (except in Jr. Discovery) and swimming at the Aquarena. Individual camp schedules repeat weekly. Some campers choose to attend multiple weeks in a summer: they always learn and notice new things, program changes slightly with the season and availability of special guests, and they always make new friends! Find more detailed descriptions of each camp on our website.
